

Today's Children- - Tomorrow's Future

Today's children are tomorrow's future
They hold the future in their little hands
What we give to them today is our tomorrow
Make sure everyone understands
It's the little things that are important
Like a little seed becomes a tree or flower
Little voices can say some very big things
Like a drop of rain can start a thunder shower
Let's listen to the words of Abraham Lincoln:
"A child is a person who is going to carry on what you
have started. He is going to sit where you are sitting,
and when you are gone, attend to those things which
you think are important. You may adopt all the
policies you please, but how they are carried out
depends on him. He will assume control of your cities,
states and
nations. He is going to move in and take over your
churches, schools, universities and corporations....The
fate of humanity is in his hands."
Today's children are tomorrow's future.
We hold the future in our little hands.
What you give to us today is our tomorrow.
Make sure everyone understands.
They hold the future in their little hands.
Make sure everyone understands.

The Mighty Mob

It's the mighty mob. Here they come.
Hop into the Roo World everyone!
We can learn a lot from a Roo.
They're an awful lot like me and you.
Dad Boomer makes time with his family to play. Mom
Doe's with baby Joey everyday.
They're the biggest hopping animal anywhere. They
use their tail as a chair.
They run real fast, jump far and high.
They're different shades like you and I.
The Roo World and our world are much the same.
They socialize in mobs or may play a game.
They eat only veggies and not meat.
They recycle their energy. Isn't that neat?
Australia is their native land.
Like you and I on two feet they stand.
They like to swim, but they hop or walk.
We could hang out if they could talk!

Roller Skating's Fun

Rolling. Rolling out to play.
We're the mighty mob. We're here to say.
Roller skating sure is fun. But stay safe everyone.
We're the mighty mob and we say to you that
skating's fun but be sure that you
Wear pads and a helmet as safety control and
You can get out and rock and
Rollrolling out to play.
Skate in places that are all right.
Skate in the day and not at night.
Keeping safety your number one goal
Will let you have fun to rock and
Roll.....rolling out to play.

Responsibility

Lets talk about a word that's very long.
Its so important, it needs its own song.
It's a word for you and me.
This word is responsibility!
Responsibility is yours and mine.
Responsibility all the time.
Responsibility. Hey, don't you know?
You must be responsible wherever you go.
Now that you know the word, what does it mean?
You could work alone or work as a team.
Do your own part. Help others on the way.
Be responsible in what you do and say.
If you say you'll be there, make your words true.
People will know they can count on you.
When you use something,
Put it back where it was found.
Take care of things and people,
Friends will want you around.

TRAFFIC!!!

Traffic! Traffic! Traffic with people.
Traffic with cars.Soon we'll have traffic in the stars!
Whether traffic is heavy or traffic is light
Keep yourself safe. Do things right.
Follow the signals. Look for a sign.
Know what you're seeing and you'll be fine.
There are signs to tell us to stop or go
There are symbols that mean fast or slow.
We need to know what different colors mean
Like slow for yellow. Stop Red. Go green.
Traffic! Traffic!
Sometimes in traffic people lose their cool
Sometimes they may break a rule

Keep your wits about you, listen to sound
An emergency vehicle may be around
Railroad crossings mean there's a train

If You're Happy (Bluesy version)

If you're happy and you know it, clap your hands.
If you're happy and you know it, wink an eye.
If you're happy and you know it, blow a kiss.

Creativity

You have a box of crayons, colored pencils, too
Get some pretty paper. See what you can do.
Be yourself. Don't need to draw what you are shown.
These are tools. They're yours. You're on your own!
So paint your own pictures. Draw outside the line
Make a purple cow. That would be fine.
March to your own drummer. Sing in your own key.
You're just expressing yourself. Creativity!
Make a fashion statement.
Wear stripes with polka dot.
Put your hair in pigtails. Be proud of what you've got.
Don't let others lead you. Be who you want to be.
Enjoy yourself. Have fun.
That's how it's supposed to be

S-H-A-R-E

Share with me. I'll share with you.
Sharing seems like a cool thing to do.
I'll share with you. You share with me.
We can S-H-A-R-E!
My mom made oatmeal cookies. She made a lot.
She said give some to your friends.
Share what you've got.
We shouldn't share a drink
But we can share time and space.
And we can share the smiles upon each other's face.
Sometimes when I have a toy.
I'm not ready to let others play.
I should take that toy and keep it away.
There are things I like to share and
Things just for me
That's ok. Be sure to share yourself and be friendly.

Because We're Friends

I'm short. I'm tall. I dance. I play ball.
It doesn't matter because we're friends.
I'm black. I'm white. I like the day. I like the night.
It doesn't matter because we're friends.

I like you because you're fun to be with.
I like you because you make me smile.
I like you because you're always there.
I hope we're friends for a long, long while.
My eyes are brown. My eyes are blue.
I'm a Christian. I'm a Jew.
It doesn't matter because we're friends.
I like the sun. I like the rain.
I walk alone. I use a cane.
It doesn't matter because we're friends.
I'm a boy. I'm a girl. I like to jump. I like to twirl.
It doesn't matter because we're friends.
I have a dog. I have a cat
And there's nothing wrong with that!

I'm A'Lookin

I'm a'lookin for a manatee. And it's getting harder for me
I looked in the bay and I looked in the sea
but I can't find a manatee
Now where can we go to find a manatee when they're
disappearing from the sea?
To the bay: (Oh no) To the Sea? (Oh no).
We better take care of the manatee
I'm lookin' for a panther from F-L-A.
I don't see one around today
I looked in the panhandle, I looked down south.
The Florida panther isn't about
Now where can we go and look today
To see a panther in F-L-A?
In the panhandle? (No) Down south? (Oh no).
The Florida panther isn't about
I'm lookin' for an eagle in the sky. I don't see one flying by
Looked in the brush, looked in a tree.
The eagle is getting harder to see
Now where can all the eagles be?
I've looked and there are none to see
In the brush? (Oh no) In a tree? (Oh no)
Eagles might be gone eventually.
I'm learning to take good care of every animal everywhere
In the land and in the sea. Animals are part of humanity!

Vacation

Vacation. Vacation. Lets make sometime to get away.
Vacation. Vacation.
Lets make sometime so we can play.
First part of the vacation, pick out a place to go.
Find out things about it
So when you're there, you will know,
The name of where you're staying,
And know the name of the street.
That way if families separate,

You will know where to meet.
When you're on a vacation,
Spending time under sunny skies
You must wear sunscreen and sunglasses for your eyes.
Wear sensible clothing.
Wear shoes good for walking, too.
Make sure people at home know how to contact you.

Patience

Patience. Patience. Sometimes you have to wait.
Have Patience.
I want to leave right now. I want to go.
Why must my mom always move so slow?
She says to take my time; We will get there.
She has some things to do but I don't care.
Patience is a virtue. Its hard to learn.
Patience when you're hungry or
When you wait your turn.
Be patience and learn patience.
Its what you have to do.
Have patience for others.
Be patient with yourself, too.

Find the Pet That's Right for You

I always wanted a pet from when I was small
I saw my friend's pets and wanted them all
A bird on a perch. A fish in a bowl
A teeny mouse who pokes out from his hole
My parents told me a pet would be fine
But there were things to learn before one was mine.
How to take care of it, what its needs would be
And learn what kind of pet would live best with me
You can have a dog, cat or elephant, too
Find the pet that's right for you
It will be a friend. Take care of your pet.
No matter what kind of animal you get.
A dog needs to walk, a horse to run
A hamster likes a wheel to have some fun
Some pets need a license - that's animal control
Keep populations down. That's the vets role
I would feed it, water it, hold it. Give it my love
Getting a pet was all I could think of
Read about your pet. Learn what you need to know
Your pet will be your family. Together you will grow.

Find the Gift

If you look in their eyes you will see
All the things each child can be
Look. You'll see its there. All you've got to do is care.
Find the gift in every child.
When I start each and every day,
I remind myself to listen to what they say.
It's the way they look at you and the little things
they do.
Find the gift in every child.
One child may bless you with his song.
One child may bless you with her smile.
One might paint. One might dance.
But each deserves a chance.
Find the gift in every child.
