

Hey Hey Everybody

Hey hey everybody lift your arms (3X) And smile a smile for me.
Hey hey everybody lift your arms. Turn around (3X) And smile a smile for me.
Hey hey everybody lift your arms. Turn around, stamp your foot (3X) And smile a smile for me.
Hey hey everybody lift your arms. Turn around. Stamp your foot. Get down stand up (3X)
And smile a smile for me.
Hey hey everybody lift your arms. Turn around, stamp your foot. Get down stand up,
Make a silly sound (3X) And smile a smile for me.

Co-op-er-ate

We sing about a special word today - Co-op-er-ate
We use it at work, school and play - Co-op-er-ate
It's so important to get things done - Co-op-er-ate
So, come on, cooperate everyone! Co-op-er-ate (2X)
Each part of the word - Co-op-er-ate
Must be said, must be heard - Co-op-er-ate
They work together like people do - Co-op-er-ate
Like we need a me and you - Co-op-er-ate

The four syllables in cooperate work together, they participate
To make a word that's really strong. If they don't work together it comes out wrong!
Like Er-ate-op-co etc.
Co alone means company. Op is a kind of art you see.
Er means you forgot what to say and ate's the past tense for eat, okay?
So put your hands together and sing this song - Co-op-er-ate
It's a nice feeling to get along - Co-op-er-ate
It makes you feel so good inside - Co-op-er-ate
Cooperating gives you pride? - Co-op-er-ate (2X)
So once more before we're done, let's sing Cooperate everyone!

The Turtle

I have a little turtle and he lives in a shell
He swims in the water, he swims very well
He climbs on a rock when he wants to take a nap
But if a fly comes buzzing by, he just goes SNAP!
I have a little turtle and he's very, very slow
He takes his time, no matter where he'll go
He stays in his shell and keeps out of sight
But when a fly comes buzzing by he takes a bite!

Swim, Swim

I like the water, yeah, yeah, yeah. I like a pool, yeah, yeah, yeah
I like to swim, yeah, yeah, yeah. But I am no fool, no, no, no
Before you go swimming, before you go in, you need to take a swimming lesson!
I like the ocean, yeah, yeah, yeah. I like to play in seafoam, yeah, yeah, yeah
I like to catch a wave, yeah, yeah, yeah. But I won't swim alone, no, no, no
Before you go swimming, before you go in, you need to take a swimming lesson!
There's so many rules like walk, don't run. Get out of the water when the thunder comes.
Use big arms; reach and pull. Before you put your face in, make sure your lungs are full!

When It's Ready!

My child now is six years old and I hear everyday,
"Mommy, when is my tooth gonna fall out?" I always have to say,
Your tooth will fall out when it's ready. It's not gonna fall out before
Your tooth will fall out when it's ready
So don't ask me anymore, no no. Don't ask me anymore!
Now all her friends have lost a tooth, maybe two or three
But "When is my tooth gonna fall out?"
She's always asking me and I tell her...Your tooth will fall out etc.

She felt a tooth loosen wiggled with all her might
Nothing happened. She went to bed sad that night
I told her to have patience. You grow at your own pace.
When she woke in the morning her smile had a space
I told her. Your tooth fell out when it was ready, it didn't fall out before
Your tooth fell out when it was ready, So don't ask me anymore NO NO Don't ask me anymore!

Milk and Cookies

I eat my milk and cookies with my mommy every night.
I chew 'em up and swallow each and every single bite
I love my milk and cookies and my mommy loves them, too
And if you come to our house, I'm sure we'd share with you.

Milk and cookies, milk and cookies. Um, they sure taste great
Milk and cookies, milk and cookies, put some on my plate!

Rainbow

Let me be a rainbow high up in the sky
You can come and join me someday when you fly
If I were a rainbow I would still come home
After each storm passes through, look you're not alone.

When life's rain passes, you look in the sky
You will see my rainbow and know I'm close by
Let me be a rainbow - etc.
The rainbow joins us I'm on the other side
Someday we'll meet once again when over my rainbow you fly
Let me be a rainbow high up in the sky
You can come and join me someday, someday when you fly!

Jungle

Let's go to a jungle, there's a lot we can explore
The Rain Forest in the Amazon and even many more
Some in South America and South East Asia, too
Even on some tropical islands, you may find a few
Jungle, jungle so many to explore. The Congo and the Amazon and even many more

It's fun in the Amazon and on the islands, too. But let's take a trip to Africa, Come on, me and you.
Conga to the Congo (Conga to the Congo) (2X)
Off to Africa we go, there we'll find the Congo. Dark Continent far away, an interesting place to stay.

Rockin' in the jungle, rockin' all day. I see the monkeys and I want to play
Rockin' in the jungle and I feel its beat. The Big elephants stomp their feet
Yeah, we're rockin' rockin' rockin' in the jungle.
Rockin' in the jungle, rockin' along, I hear the birdie sing his song
I like the jungle with all its green. It's really such a pretty scene
Yeah, we're rockin' rockin' rockin' in the jungle.

Stroll out come stroll on out with me. It's very hot and quite rainy
In the sun for many hours is good for all the plants and flowers
But I'm strolling out come stroll on out with me.
Stroll on out our time in the jungle is through. I've had a lot of fun in the jungle with you
Seeing all the animals there feeding on the plants everywhere
But I'm strolling out come stroll on out with me. It's great in the jungle, but stroll on out with me.
Jungle, jungle so many to explore. The Congo and the Amazon and even many more

Caterpillar

Caterpillar, caterpillar you crawl so quietly until you find yourself a tree
Then you climb, climb, climb 'till you reach the top. When you find yourself a branch you stop

Caterpillar, caterpillar. Here's where your work will begin
Then you spin, spin, spin a cocoon you spin
This is where yourself you keep and take a very, very long sleep.

Caterpillar, caterpillar when your time is through you say goodbye
When you crawl out of your cocoon we are greeted by a butterfly.

Eat From All Your Food Groups

There's many different food groups that help you to grow
Your parents put them on your plate Bbecause they know
Many groups from which to eat - Fruits, dairy, vegetables, bread and meat
Eat from all your food groups each and every day
If you want to be real strong to go outside and play
Grownups know what's best for you. So listen to what they say
Eat from all your food groups each and every day.
I love my vegetables; they keep me strong. With beans for protein you can't go wrong
Juice to wash it down. Water is good, too. And any piece of fruit is always good for you.

The Planets

Can you name, if you try, all the planets in the sky?

There are nine of them. I know. You can name them. Here we go:

Mercury, one, Venus, two. Earth, three, Mars, that is four. Can you name - etc.

Jupiter, five, Saturn, six. Uranus, seven, Neptune, Pluto, none.

Can you name if you try all the planets in the sky?

There are nine of them you see. You have named them all for me.

Who Sings for the Children?

Who sings for the children? For the ones who have no say

Who sings for the children? Let it be my voice today.

If I were a child, I'd ask for time. Time to be in good care

You'd smile at me, then turn away. No one's ever there. Who sings - etc.

We give to them our comfort, we give to them our hearts

But do we give them the tools they need for a good start?

Who sings for the children? For the ones who have no say

Who sings for the children? Let it be my voice today

Before they grow up and go away
