

### **Let's Monkey Around**

Lets monkey around; lets have some fun.. Lets monkey around everyone!

Use one hand to scratch under your arm Scratch your head with your other hand

Make some monkey sounds—Ooh, ooh. Now don't be shy; You know you can!

Everyone likes to have some fun. Likes to monkey around

Its fun to be silly; Its fun to laugh. Let yourself go and make that sound!

Ooh, ooh, ooh, ooh, EE, EE, EE, EE Ooh, ooh, EE, EE, Ah, Ah, Ahh!!!!

### **A Song About a Snake!**

I don't want to sing a song about a snake. Just thinking of one makes my belly ache.

Don't like 'em on the ground; don't like 'em in a lake.

I don't want to sing a silly song about a snake

Snakes have a part in nature to play.They help keep rodents and insects away

They have no limbs to move they sway. So I think its wise to let the snakes stay.

Here's some things about snakes I found. Snakes move swiftly on the ground

They move so softly, there's hardly a sound. It's probably wise to keep snakes around.

Okay I'll sing a song about a snake. Understanding makes it easier to take

They can crawl on the ground; they can swim in a lake

As long as I don't have to sing with a snake!

### **Mr. Froggy**

Mr. Froggy went out one day. Said "Hi Gioia Belle. Would you like to play?"

Gioia said "Hi Frog. How do you do? Yes I'd like to play with you."

So they hopped from pad to pad. Oh what a good time the froggy had.

He had fun all day long, hopping on pads and singing his song

Oh what great fun today, but now Mr. Froggy has to go away

He'll be back to play again, 'cause Mr. Froggy likes his new friend.

### **Mr. Froggy's Family**

Mr. Froggy went out one day. He was looking for someone to play.

He met a nice girl frog, and pretty soon they were sharing a log

The froggies were so happy. They wanted a family

They didn't wait very long. Now Mr. Froggy sings this song:

I love my tadpoles. See them swim. My little amphibians

I'll watch them grow from polliwogs into adult frogs. Ribbit. Ribbit. Croak. Croak.

Croak.

Mr. Froggy's family swam together happily

They'd play their favorite froggy game. I'm sure your family does the same

Mr. Froggy knew one day his froggies would swim away

As he watched his family grow, Mr. Froggy would let them know

### **What's Inside?**

What's inside this egg? One might never know. For inside an egg different animals grow.

Let's open up this egg and see what's within. Oh my, look! A baby chicken!

### **I'm A'Lookin**

I'm a'lookin for a manatee and it's getting harder for me

I looked in the bay and I looked in the sea, but I can't find a manatee.

Now where can we go to find a manatee when they're disappearing from the sea?

To the bay: (Oh no) To the Sea? (Oh no) We better take care of the manatee

I'm lookin' for a panther from F-L-A. I don't see one around today

I looked in the panhandle, I looked down south. The Florida panther isn't about

Now where can we go and look today to see a panther in F-L-A?

In the panhandle? (No) Down south? (Oh no) The Florida panther isn't about

I'm lookin' for an eagle in the sky. I don't see one flying by

Looked in the brush, looked in a tree. The eagle is getting harder to see

Now where can all the eagles be? I've looked and there are none to see

In the brush? (Oh no) In a tree? (Oh no) Eagles might be gone eventually.

I'm learning to take good care of every animal everywhere.

In the land and in the sea, animals are part of humanity!

### **Ra-Ra-Raccoon**

I'm a ra ra ra ra ra raccoon. I'm gonna sing you a tu tu tu tune

Under the sun or the mo moon, I'm a ra ra ra ra ra raccoon

**Little Bunny Foo-Foo** (the new, improved version)

Little Bunny Foo-Foo hopping through the forest, scooping up a field mouse and

Poppin' him on the head, Out came his mother and she said,

"Little Bunny Foo-Foo I don't want to see you scooping up a field mouse and

Poppin' him on the head"

Spoken: Now little Bunny Foo-Foo, I know you know better

Than to treat another animal that way.

You go sit by yourself for a while and think about this." (Repeat first verse)

Spoken: Now Bunny Foo-Foo I am very disappointed in your behavior. I know you can think of a nicer way to treat that mouse. You go sit by yourself a while longer and

when you think of a nicer way, you let me know when you are ready."

So, Bunny Foo-Foo sits a while longer, and finally:

Little Bunny Foo-foo hopping through the forest

Scoops up a field mouse and gives him a great big hug!

And his mother says, "Little Bunny Foo-Foo I am so proud of you!

Come into my lap and get a treat big hug."

And the moral of this story is that it is much better to be hugged than to be hit!

**Caterpillar**

Caterpillar. Caterpillar. You crawl so quietly until you find yourself a tree.

Then you climb, climb, climb 'til you reach the top.

When you find yourself a branch, you stop.

Caterpillar. Caterpillar. Here's where your work will begin.

Then you spin, spin, spin a cocoon you spin.

This is where yourself you keep and take a very, very long sleep.

Caterpillar. Caterpillar. When your time is through you say "goodby"

When you crawl out of your cocoon, we are greeted by a butterfly.

**Let's Pretend We're Elephants**

Let's pretend we're elephants. It'll be fun to play.

I'll hold your tail with my trunk. We'll walk around that way.

Elephants walk together like this in a long elephant line.

As many as would like can join us now. That would be fine.

Take your elephant trunk and make it sway. Do the elephant walk

Take your elephant trunk and make it say "!!" Do the elephant talk!

Put your left arm in front of you. Move your right foot forward, too

Switch to right arm and left foot. That's what elephants do

As many as would like can join us now. That would be fine!

**Wiggle Worm**

I'm a wiggle worm, I've got nothing to say. I just wiggle everyday.

A wiggle worm, I've got nothing to do except sing this song for you.

A wiggle worm, I don't make a peep. I'm going back in the dirt to sleep.

**In My Apple**

I saw an apple; It was shiny and round. I thought "Um, what a great snack I found."

I opened my mouth to take a bite. When, YUK! Look what came into sight.

There's a worm in my apple. A worm, now don't you laugh

There's a worm in my apple. I'm sure glad I didn't bite him in half!

Big alligator jaws go snap, snap, snap. His tail in back goes slap, slap, slap

The alligator crawls around on the ground

He's usually green, but sometimes white or brown

To move he makes his belly drag. If he comes after you, you better run zig zag!

The alligator has beady eyes. He can be small or large in size

If you see one, don't give him food. That's being safe; its not being rude!

### **Find the Pet That's Right for You**

I always wanted a pet from when I was small. I saw my friend's pets and wanted them all  
A bird on a perch. A fish in a bowl. A teeny mouse who pokes out from his hole  
My parents told me a pet would be fine but there were things to learn before one was mine.  
How to take care of it, what its needs would be

Learn what kind of pet would live best with me  
You can have a dog, cat or elephant, too. Find the pet that's right for you  
It will be a friend. Take care of your pet. No matter what kind of animal you get.  
A dog needs to walk, a horse to run. A hamster likes a wheel to have some fun.  
Some pets need a license; that's animal control.  
Keep populations down. That's the vets role  
Feed it, water it, hold it. Give it love. Getting a pet was all I could think of.  
Read about your pet. Learn what you need to know  
Your pet will be your family. Together you will grow.
