May 12, 2018 from 9:00 am-1:00 pm

Registration opens at 8:30 am

All Early Childhood Caregivers and Parents Welcome!

Children begin to benefit from music before they are born. Music activities which are developmentally appropriate for the attention span of an Infant/ Toddler, and beneficial to the four areas of growth. Come hear songs Mar. has written for her own program, Kaplan and Dr. Becky Bailey!

- This workshop will highlight many brain facts specifically for this age group and supply ideas to implement them.
- Attendees will interact with each other to gain an appreciation for the activities and gain a clearer picture of what to do with an Infant / Toddler
- Teachers will learn many brain facts and how to put them into action.

Seating is limited to the first 50 who register.

Training provided in partnership through...
